MILWAUKEE PILOT PROGRAM LOOKS TO BOOST RECYCLING OF PLASTIC BAGS AND WRAPS AT LOCAL ROUNDY’S STORES.

A pilot program at select grocery stores in the Milwaukee area is testing ways to increase collection of plastic bags and many types of flexible wraps. The program installed new in-store recycling bins and communicates directly to shoppers at these stores, encouraging them to collect and bring back plastic film items – grocery bags, newspaper bags, dry-cleaning film, product wraps, bread bags, and more – for recycling.

The plastic film is sent to recycling facilities for use in new bags, new packaging, decking, benches, and other items.

Please pitch in when you shop at these stores!
